

## 90 Degree Quadrant Fairlead

### Description:

Wintech's 90 Degree Quadrant Fairleads are designed to deflect cable requiring a large radius where space may be limited. Multiple sheaves form a large radius reducing cable fatigue.

### Standard Features:

- 90° wrap angle
- Sealed bearing or bronze bearing sheaves
- Bolted frame construction
- Bolt down base angles
- Nylon or steel sheaves
- Customized to suit your cable specifications and load requirements
- Customized frames in steel, stainless, or aluminum

*Typical configuration for 36" bend radius with 3 1/2" cable diameter. Due to our policy of continuing development, all specifications are subject to change without notice. Users of these products are responsible for ensuring their suitability for the application in which they are being used.*

Made in the USA
